

NGS Magnified Task Cards
are an engaging, versatile
educational tool that
reinforces learning,
differentiates instruction,
and promotes independent
and collaborative work.

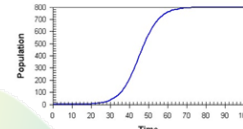

DECIDE

Population Dynamics
1

The proportion of people in each of the three age groups of a population is its ____.

- a. age structure
- b. fertility

Population Dynamics
2

COMPLETE

DECIDE

Population Dynamics
5

The population growth of a country depends on its birthrate, death rate, and ____ rate.

- a. age structure
- b. fertility

IDENTIFY

Population Dynamics
6

Identify three density-dependent limiting factors.

COM

The number of species that can live in an environment is called its ____.

DECIDE

Population Dynamics
9

If all the people your age live to be 100, the overall population growth will be ____.

- a. age structure
- b. fertility
- c. slow
- d. rapid

CLASSIFY

Population Dynamics
10

Classify the following items as either a renewable or nonrenewable resource:

COMPLETE

The study of information about human population is called ____.

COMPLETE

The part of the atmosphere that protects organisms on Earth's surface from harmful ultraviolet radiation is the ____.

DECIDE

Population Dynamics
13

If you know a population has a large group in pre-reproductive years, you would predict that soon the population growth will be ____.

- a. age structure
- b. fertility
- c. slow
- d. rapid

DECIDE

Population Dynamics
14

The amount of Earth's fresh water supply available to plant and animal life is about ____ %.

- a. 0.1
- b. 20
- c. 3
- d. 50

COMPLETE

Natural disasters such as volcanoes and floods are density-____ limiting factors.

DEFINE

Population Dynamics
16

Define extinction.
